Farm Bureau Official Information

POTATO SCAB CUTS PRICE AT MARKET

County Agent Details Methods Used in Protecting Potato Crop.

By R. T. GLASSCO

Answering a question as to how the farmers of Rock County could make more money, Adolph Carr of Carr Brothers, stated that the farmers should treat their potatoes for scab so that they could be sold to the local grocers. He, as well as the other grocers of Janesville and other Rock County towns, are anxious to use home grown potatoes, but on account of the poor quality, many of them cannot be used.

There are three very effective ways to treat potatoes: one, the corrosive sublimate method is efficient but rather dangerous. Use four ounces of dissolved corrosive sublimate in 30 gallons of water. Soak the seed at least 15 hours. The solution can only be used four times. A wooden container should be used as brass or iron will be corroded. Treat unsprouted potatoes before cutting. Do not treat in sunny spots. Dry the potatoes immediately. Corrosive sublimate is a deadly poison and should be kept away from children or livestock. If the containers are to be used again, they should be thoroughly scalded.

Treating by the cold formaldehyde method is satisfactory, although all the potato diseases are not controlled by it as they are by corrosive sublimate. Use 1 pint of 40 percent formaldehyde to 30 gallons of water. Soak two hours. Potatoes should be treated at once before they become sprouted to any extent. Put in a clean dry place and they will be all right when planting time comes for late potatoes.

The hot formaldehyde treatment is effective, but more difficult to use. One pint of formaldehyde is used to 35 gallons of water and the solution is kept at a temperature of from 118 to 122 F. Immerse the potatoes two minutes. A gunny sack may be used and then it is advisable to keep the potatoes covered with a canvas for 60 minutes before drying. This method is recommended by the Iowa

experiment station and seems to give good results.

One of the reasons for the excellent stand of alfalfa and clover in Rock County this year is the great amount of limestone which has been used. Up around Evansville where one of the Farm Bureau limestone crushers has been in continuous operation for the last two years one may see very fine fields of alfalfa.

John Robinson and Sons, the noted Hereford breeders of Rock County, have used 280 tons of limestone on their very fertile farm. They are putting in 35 acres more of alfalfa this year on lined land.

Orrie Steele, a neighbor of the Robinsons, has used over 300 tons of limestone on his 120 acre farm and has only 20 acres more to cover with limestone until his whole farm will be covered.

Steele is conducting a five acre demonstration plot for the College of Agriculture. Different kind of fertilizers and rates of application are being used on each plot.

Steele has 10 acres of Grimm alfalfa which he is going to save for seed. It looks as though it will produce enough to be profitable. He also has 10 acres of common alfalfa and is seeding 15 acres of sweet clover and 10 acres of alfalfa.

The farmers around Evansville, as well as in practically every section of Rock County, are getting more enthusiastic every year about alfalfa. Some farmers last year got as high as 3 1/2 tons per acre of hay, which is worth \$25.00 a ton. It is one of the most profitable crops which can be raised.

700 HIGH SCHOOL MUSICIANS MEET

Competition in First Annual State Meet Starts in Madison Thursday.

Madison — More than 700 Wisconsin high school musicians were scheduled here today to begin competition in the first annual state high school music contest, as one of the main features of the state's music week program. The contest is being conducted by the University of Wisconsin school of music and will continue through tomorrow night.

Bands, orchestras, glee clubs and mixed choruses in addition to individual competition, will be staged.

Green Day is entered with eighty high school musicians one of the largest individual representations in the meet. Other schools that have competitors in the events include: Elkhorst, Racine, Fredsburg, Washington high school, Milwaukee, Mineral Point, Manitowish, Janesville, Plainfield, Cornell, Lodi, Cambria, Lake Mills, Seymour, Waupun, Mayville, Mr. Joseph, Wauwatosa, Beaver Dam, Clinton, River Falls, Hurley, Delavan, Jefferson, Kenosha, Milton, Muscoda, Sharon, Waunakee and Madison high schools.

The events scheduled in the meeting include: solo competition in voice, piano and violin; girls' glee clubs, mixed choruses, orchestra and bands. High schools are rated according to their enrollment in classes A, B and C.

Individual and Team

Trophies will be awarded for winners in individual events as well as team points. University musical societies have offered a large silver loving cup to the high school winning the largest number of points. For solo events, a gold pin will be given for first place. For group events, loving cups will be given for first and second places.

The meet brings together which is claimed to be the largest group of amateur musicians ever gathered in the state. It is designed primarily to stimulate interest among high school students in musical endeavor. The contest will be an annual affair, it is planned.

RADIO HELD GREAT INFLUENCE OF DAY

Destined to Change Social Institutions, Extension Convention Told.

(BY ASSOCIATED PRESS)
Madison — Radio communication is destined to change present social institutions as profoundly as the motion picture and automobile have in recent years. It is destined to hold the same place for the boy of tomorrow as the Arabian Nights for the boy of yesterday. These were statements made by Prof. W. T. Lighty of the University of Wisconsin in a report today to the annual convention of the National University Extension association in session here.

Prof. Lighty declared that radio is certain to take a leading role in extension work of universities of the nation in years to come, but he declared that the time when radio courses will be effective will not come until a definite program for radio broadcasting is developed.

Will Safeguard Public
The nation is far behind in the passage of legislation regulating radio broadcasting, Prof. Lighty said. He pointed out that the present congressional law regulating radio work was enacted in 1912 when the telegraphic method of radio communication alone was used. Twenty-nine government inspectors have the task of regulating more than 2,000 radio stations in existence in the nation, the speaker said.

"Regulation that will adequately safeguard and guarantee the public's interest for the development of the science is imperative," Mr. Lighty continued. "It is absolutely necessary that the government retain possession of the ether in the public and provide rules for orderly conduct in the use of the ether."

The other, like public office, is a public trust or public concern possessed of public interest and public principle is a public utility."

Tax is Proposed
Mr. Lighty declared it unthinkable that a single group of persons or organization should be permitted to determine what may or may not be done in radio communication and the use of ether. He expressed opposition to licenses for the operation of radio sets and also proposed taxes upon radio apparatus. To impose a tax upon the radio interest would be imposing a tax upon illiterate circulation, he stated. The speaker urged the national association to take a definite stand on the regulation of radio operations and to interest itself in development of extension courses by radio.

Great Development
Development of university extension work has surpassed that of any other branch of education work during the past 10 years, Prof. L. E. Fisher, dean of the University of Wisconsin Extension division, declared before the convention. Dean Fisher was one of the founders of the national association.

INDEPENDENCE AT END OF 20 YEARS

House Committee in Favor of Greater Autonomy for Philippines.

(BY ASSOCIATED PRESS)
Washington — A promise of greater autonomy at once and independence in 20 years is held out to the Philippines in a bill favorably reported to the house by its insular affairs committee.

Although no place has yet been assigned to it on the legislative program, friends of the measure are expected to press for a vote on it before congress adjourns.

The bill, with a provision for an independence plebiscite in the islands at the end of 20 years, was amended by the committee into yesterday to eliminate the plebiscite requirement and provide for automatic recognition of the Philippines as an independent nation and withdrawal of American troops at the expiration of 20 years.

State Insurance on Own Buildings Keeps Growing

(BY ASSOCIATED PRESS)
Madison — More than \$1,000,000 has been saved to the state and to municipalities and schools of Wisconsin through operation of the state fire fund since its organization in 1922, according to information contained in the annual report on the fund submitted to Gov. Elaine by W. Stanley Smith, state insurance commissioner.

The report shows that there is in force at the present time a total of \$78,410,469 of insurance in the state fund.

During the past year the surplus in the fund increased a total of \$144,095, the report declares, or from \$641,975 to \$786,070.

Losses Very Small
Twenty-four Wisconsin counties, 12 cities, 37 school districts and two library boards now hold insurance in the state fund, it is stated. No premiums earned by the fund last year were \$12,317; net losses, \$604; interest received, \$32,280, and the average rate of interest on moneys from the fund was 4.9 per cent.

The ratio of losses incurred to premiums earned during the year was 28 one hundredths of one per cent, the report shows. The ratio of expense incurred was 2.15 per cent, and losses and expenses incurred amounted to one-third of the interest received.

ceived from moneys in the fund.
Total assets of the fire fund at the close of 1923 were \$912,244 and liabilities \$113,171.
A majority of the funds from the fire division are invested in farm loans and mortgages, according to Commissioner Smith. In bonds at the close of the year there was invested \$802,709. Wisconsin farmers are given preference whenever loans are made, the commissioner said.
"The fire fund is in the best financial condition at this time that it has been in years," Commissioner Smith declared. "The surplus in the fund increased from \$614,975 in 1922 to \$786,072 at the close of 1923, or one of the most substantial gains that has been made in one year."

200 ATTEND FIRST MOTHER-SON FETE

Wife of Beloit College's New President Speaker at "Y" Banquet.

Exceeding even the expectations of the agencies in charge, the first annual mother-son banquet under the auspices of the Y. M. C. A. community department and a community committee in cooperation with the churches and boys' club was considered to be one of the most enjoyable affairs of its kind ever held here. There were 175 mothers and sons present at the dinner in the "Y" gym Wednesday night.

Dr. Irving Maurer, wife of the president of Beloit college, was the speaker of the evening and talked on the value of home training. She pointed out very clearly that in her opinion no agency could quite take the place of the home in creating the proper atmosphere for character forming in boys, and suggested that mothers give more thought to home training. Greater interest in home life and more thoughtfulness toward his own family were suggested as means by which boys would be able to enjoy himself more.

Awards for these making the required number of points in the annual Y. M. C. A. location held during the latter part of March, were made by A. E. Bergman, community secretary. Stanley Millard was given highest honor, a gold badge, for scoring 600 points in the various events. Silver pins were awarded to Robert J. Davis, Robert O'Connell, Robert Palmer and Owen Trevarrah; and bronze pins to William Dorrans, Richard Stuart, Victor Barfknecht, James Walsh, Arthur Walsh, Keith Bolton, Hugh Blakely, Robert Strampe, William Cullen, C. Neelitz, Milford Van Der Walker, Dale Lattin, Charles Robertson, and John Pugh. They were for winning 500 and 400 points, respectively. Awards are also due James Lytle, Ben Meek, Robert Dorrans, and John Tobin, but they were not present to receive them.

Mrs. Atwood Presides. Introductory remarks were made by Mrs. C. Starr Atwood, chairman of the committee which arranged the gathering. Welcome of the various Y. M. C. A. boys' clubs were given by Hugh Blakely, representing the Junior-Radet club; Robert O'Connell for the Triangle club; and Albert Bell for the Upsilon club. John Pugh, longest work secretary, was introduced, and gave a brief talk following the presentation of the athletic emblems.

Presentation of some facts concerning boys' club work in Wisconsin was made by Ray V. Sowers, state secretary for high school boys' work. It was only by accident that Mr. Sowers came to Janesville Wednesday night and was secured for a short address which was an added feature. The speaker discussed the value of the Y club especially and gave the total number of boys in the high school clubs in this state at 2,500. He has been manager of Phantom lake camp for several years.

Musical Program Given. The tables were set in the large gymnasium, but could not accommodate at one time the entire number who attended. Decorations in red, white and blue, were prepared by A. E. Bergman and John Pugh. Popular stunt songs by the entire group were sung by the entire group. Malcolm Hayland gave a piano solo. Music was furnished by an orchestra composed by Harry Shurtliff, Walter Will, Myron Miller, Clarence Foster and Earl Foster.

The committee which arranged the banquet consisted of Mrs. C. Starr Atwood, chairman, Mrs. E. M. Erickson, Mrs. E. E. Wilson, Mrs. O. Wheeler, Mrs. H. Casey, Mrs. J. R. Henson, Mrs. L. Gestland, Mrs. J. M. Dorrans, John Pugh, Arthur G. Bergman, Charles Robertson and A. E. Bergman.

A flash-light photo of the entire gathering, seated at the tables, was taken by John Koller immediately before adjournment.

Three generations of one family were present with Owen Trevarrah, his mother, Mrs. Frank Trevarrah, and his grandmother.

SUPERVISORS ARE INVITED TO SESSION

An invitation was extended to the county board to attend the Wisconsin convention of superintendents and directors of state normal institutions to be held in Janesville, June 1, 2 and 3.

A little white heifer was side-tracked for a big black one.

PRESIDENT GIVES UP MORNING WALK AS WORK PILES UP

(BY ASSOCIATED PRESS) Washington—The steadily increasing pressure of work at the capitol incident to the approach of congressional adjournment has brought its reaction at the White House in the virtual abandonment by President Coolidge of the early morning walks he has been accustomed to take regularly since he entered the White House.

The president during the winter left the White House almost every morning for a half mile walk before breakfast. Although still practicing the habit of arising early, Mr. Coolidge recently has been foregoing the walks in order to spend more time in his study, going over matters coming before him in connection with completed or soon to be completed decisions.

His only exercise nowadays is a long walk in the evening just after he leaves his office for the day.

CONGRESS FACING VETO SHOWER ON SEVERAL MEASURES

(Continued from page 11) and which the regular republicans would like to see in the shuffle. The president is plainly dissatisfied with the tax bill in its present shape. He hopes for a compromise and will not announce an intention to veto the bill in advance of consideration of its merits after it comes to him. But many of the features of the bill are objectionable to him, particularly that which makes income tax returns open to public inspection, that a veto is rapidly becoming probable. When such, however, reaches the senate that the taking of a veto, the chances are they will be eliminated as the senate collectively or divisionally would not take the responsibility for defeating tax revision. Some republicans think it would not be a bad idea to carry the issue to the country in the coming campaign, pointing out that the Mellon plan is popular and that the democrats and insurgents would be held to accountability for blocking the plan.

To Veto Immigration Bill

Mr. Coolidge is going to veto the immigration bill if it comes to him in its present form. He has taken pains in the last 24 hours to explain that he was misinterpreted a week ago when he announced he favored exclusion of the Japanese. The Japanese themselves do not object to the principle of exclusion, for they are beginning to recognize that it is an economic question in the United States and that every nation has a right to control labor likely to be competitive with its own, but the Japanese insist that the method of accomplishing exclusion is an offense to them. Secretary Hughes favors agreement by treaty. So does the president. Mr. Coolidge is trying to secure a modification. If he fails, he will be compelled to veto the measure and ask for the insertion of a clause delaying the enforcement of the act so far as the Japanese are concerned until a year or more has been given for negotiation and ratification of a special treaty with Japan. Mr. Coolidge's conference with senate leaders to point out the perils of the legislative situation have begun now. The republicans have lost control of the senate and the exercise of the veto power alone will at this time affect the insurgent republican alliance with the democrats on specific issues.

WOMEN IN DEMAND FOR CHURCH PARITY

(BY ASSOCIATED PRESS) Louisville, Ky.—A militant demand by negro women for equal representation in its affairs today was before the general conference of the African Methodist Episcopal church, in session here.

Led by voices of bishops and clergy, one thousand women stormed the conference hall yesterday and demanded, with placards and pre-arranged yells, rights of voice and suffrage in the conference on a parity with men.

Finally quiet was restored and the female intruders were placated with assurances that demands would receive consideration.

COUNTY EMPLOYEES GIVEN HALF-HOLIDAYS

County employees will have Saturday afternoons off during June, July, August and September as the result of a resolution passed by the county board Wednesday afternoon.

The original resolution introduced by Dr. C. M. Smith, Evansville, called for May, but the month of September was substituted.

"May is still winter, according to my coal bill," agreed Smith when the change was suggested.

GASOLINE STEADY AT 20 IN DAKOTA

Sioux Falls, S. D.—Virtually all filling stations here today were selling gasoline at 20 cents a gallon, the low price established yesterday morning by an independent company and maintained during the day by all the principal companies. St. Paul—Telling the members of the convention of Parent-Teachers that what was needed was more participating play, James Edward Rogers of Chicago gave warning that we were forgetting the art of play. He urged extension of the work of the Parent-Teachers' associations and said they should go into the matter of play seriously and deeply.

TWOFOLD OBJECT IN PARK CLEAN-UP

Big Community Raking Bee on Friday Is Open to Everybody.

Tomorrow afternoon's time, and Riverside park's place. The object is twofold.

Janesville citizens to the tune of several hundred are expected to don working caps and arm themselves with rakes, Friday, for the volunteer community housecleaning and inspection tour of the city's beautiful Riverside park tract. A general clean-up of the mass of undergrowth, sticks, dead leaves and other refuse, the accumulation of many years, is the primary object of the drive. At the same time the day will serve as an opportunity for the city to become acquainted with the vast proportions of the park and its possibilities for playgrounds, baseball, tennis, golf, boating, swimming, fishing, skating, tobogganing, and every other form of public sport and recreation.

Will Be Unique Event. The unique event will open officially at 1 p. m. Friday, to continue throughout the afternoon. Those who can be urged to report for duty early, but others who cannot get out until later will be welcomed any time they appear. A necessary part of the equipment of each worker will be a rake. Don't bring axes or hatchets, the city manager warns, fearing damage to the trees.

No coffee, doughnuts and sandwiches will be served to the workers about 5:30 p. m. by the members of the City Federation of Women and the Catholic Women's club. Women who have volunteered to assist in the event are

asked by Councilman Mrs. Emma H. Manning to bring along plenty of cups and spoons.

Councilmen to Supervise. The clean-up, or "hoing bee," as it is called by City Manager Henry Traxler, will be under the general supervision of the manager and a committee composed of Councilman Mrs. Manning, President J. K. Jensen, and Councilman C. Starr Atwood. They will outline the work to be done and assign a force to each section of the park.

While much of the rubbish will be raked into piles and burned, some will probably be piled in the gutters to guard against future wash-outs during rainstorms. This is in accordance with a suggestion made to the manager by E. S. Balnes.

No fire truck and several firemen will be on hand to prevent any of the rubbish fires spreading. Everyone is invited. The children may bring marshmallows and wafers and have "roasts." It is a day for

everybody, a big community working bee and frolic.

"VIOLENT LUNATIC," IS EXPERTS' WORD ON CLEVER SCRIBE

Des Moines, Ia.—A hoax, conceived in the mind of a newspaper reporter to test the theory that "any bright criminal could protect himself against this escape punishment for his crimes," proved successful when John Duncan, the reporter, playing the part of the insane man, actually was adjudged insane by the sanity commission, which ruled him a "dangerous lunatic" and remanded him to the state hospital at Clarinda. "He was started for the hospital at noon, efforts will be made soon to have him declared sane. It is believed the stunt was perpetrated as a newspaper feature. Details of the plot were made public before the reporter could write about his experience. Members of the lunacy commission say they were not advised of the hoax. They are none too well pleased about it.

COUNTY DANCE BILL WINS AFTER HOT ROW

CONGRESS FACING VETO SHOWER ON SEVERAL MEASURES

PRESIDENT DISSATISFIED WITH CERTAIN BILLS IN CONGRESS.

CONFERENCE HELD Tax and Immigration Issues Involved in Probable Negative Action.

By DAVID LAWRENCE
Copyright 1924, by the Janesville Gazette—Special Correspondence to the Janesville Gazette.

Washington—Nothing but vetoes lie ahead. President Coolidge has let it be known that certain bills pending in congress do not meet with his approval and the only inference that now can be drawn is that he will veto most of them.

The president sent for Senators Lodge, Borah and Smoot, Wednesday, to talk over with them the whole legislative program and the question of adjournment. The president has, in the last 24 hours, indicated a change of front.

They no longer feel that congress should be terminated before the political conventions. Their opportunities for attack and publicity have been hampered, they feel, by falling in line with the republican plan of adjournment. Also, there are too many bills in which the insurgents have a united interest.

I.A. CROSSE AND MADISON ROAD IS PROMISED

By Associated Press.
LaCrosse—W. O. Hotchkiss, chairman of the state highway commission, announced at a meeting here that an all-weather road between Madison and LaCrosse, to connect with the new Minnesota river scenic highway leading to the twin cities, will be completed next year.

Atlanta—Ray Garcia, one of the three Cubans held at Oahu, Fla., in connection with alleged violation of the neutrality law, is a son of General Garcia Y. Velez, president of the Veterans and Patriots Association of Cuba. It was learned here today.

PORTUGUESE FLYERS FALL

By Associated Press.
Alhambra, British India—The Portuguese aviators, Hito Paea and Sacramento Flores, attempting a flight from Lisbon to Madras, were reported to have crashed at Papat, in Vojodpur. They are said to have escaped injury.

WIFE SEIZED BY KIDNAPERS

By Associated Press.
Chicago—L. M. Hoppa, a salesman, reported to the police today that two or more men in an automobile last night seized and abducted his 27-year-old wife while she and her husband were walking. Hoppa said he was so astounded by the occurrence that he gave the matter full thought, thinking it might be a jest or mistake, before reporting to the police.

Don't Break the Bottle and Smash the Carriage

Birth—marriage—and death.
Back in the old days Julius Caesar or one of the boys who ruled things then, said that the only sure thing in life was death. Since that time it has been argued by many folks whether marriage is merely an event or a catastrophe.
But Julius omitted to mention the time when the baby carriage is broken and the young hopeful commences to walk.
This is indeed a great time in life—but what about the baby carriage? Must it actually be discarded?
No. It can be sold. How?
By using the "The Sale" column of the Gazette. Mrs. Linda, 101 S. Main Street, sold a baby carriage in two days by this method. So can you sell your baby carriage—or anything else—if you call 2500 and ask for an ad-taker.

Lake Fleet Is Frozen Solidly in Ice Field as Big Blizzard Howls

BULLETIN.
Chicago.—A lake storm warning was issued shortly before noon today by the weather bureau as follows:
"Warning of strong northeast and north winds and gale has been issued for Lake Michigan."

By Associated Press.
Superior.—With a strong northeast wind and blinding snow blowing all night, 12 boats, including the passenger steamer Huron, held in the ice just outside the local harbor, are frozen fast, according to a radio message received.

A dozen more boats are lined up in the harbor, waiting for opportunity to proceed down the lake. Five of the six boats stuck off the Superior entrance to the harbor worked their way in Wednesday night, while the sixth is expected in this morning.

Although the ice is held firmly against the Duluth breakwater by the northeast wind, a shift in the wind would carry it out into the lake, taking the 12 ships with it.

Walt Warner Weather.
There is no chance of any of the boats working their way out of the ice until they are chopped free or until the temperature rises enough to thaw them loose. All of the 12 boats are within the ice field. The ice itself is piled in huge clumps, and the harbor is crowded with ice.

No boats, except the five coming in Wednesday night, have entered or left the harbor since Monday. The docks and terminals are rapidly becoming congested. Grain terminals are able to handle all incoming shipments, but the docks are becoming filled with a resulting decrease in the number of ore trains being brought into the ports.

Twenty of them.
The radio station communicating with the Huron Wednesday night received the following message, after answering the vessel:
"All ships, fixed for food for at least a few days. Everybody getting along fine. One steamer pulled out to open water, getting away from the danger of ice. Steamers Huron, H. B. Coulter, Michigan, S. M. Clement, G. A. Tomlinson are among the boats icebound."

BISHOP MITCHELL BRANDED DESPOT

Wisconsin Pastor Prefers Charges at General Conference.
Springfield, Mass.—Charges of being an ecclesiastical despot have been preferred against Bishop Charles B. Mitchell of St. Paul, Minn., of the Methodist Episcopal church.

The charges have been preferred by the Rev. H. C. Burroughs, a minister of Union Grove, Wis., who is within the jurisdiction of Bishop Mitchell.

Announcement of the charges was made at the general conference of the Methodist church in session here. The Rev. Mr. Burroughs charges his bishop is not only a despot, but is arbitrary in his rulings on church matters. The charges will be taken up and the bishop will be heard by the conference committee on the episcopacy.

The matter was originally placed in the hands of the Rev. Samuel H. Appleton, president of Lawrence college of Appleton, Wis., but Dr. Appleton turned it over to the committee.

GERMANY FACING INDUSTRIAL CRISIS IN RUHR STRIKES

SITUATION SERIOUS AS MINERS LAY DOWN THEIR TOOLS.

300,000 ARE OUT Foreign Policy May Suffer if Industries Close for Lack of Coal.

By Associated Press.
Berlin.—The situation in the Ruhr, where 300,000 miners are out because of their refusal to meet the demand of the government for the addition of a hour to the working day, is admittedly serious. Government circles are deeply concerned, and the departure for the Ruhr last night of Labor Minister Brüning, in an attempt to settle the dispute, emphasizes the gravity of the situation.

The entire German press is apprehensive that the conflict may result unfavorably against the German foreign policy. Fear of disturbances is expressed, it being pointed out that the Ruhr miners are lacking in money and may be driven by hunger to plunder.

The limited coal reserves in the Ruhr are causing apprehensions of idleness in the big industries in the valley because of lack of fuel, should the strike continue many days.

The trouble started with a lockout by the owners when the demand for more working hours was resisted and the miners refused to accept the government's demand for a strike.

Similar lockouts have been declared by the mine owners in Saxony and Westphalia.

SEIZURE OF MINES IS 'MIGMUS' THREATENED BY 'MIGMUS'

By Associated Press.
Bismarck, N. D.—The "Migmus" organization, which the mine owners have an agreement for reparation deliveries, is insisting that these deliveries must be kept up. It threatened seizure of the mines unless there is a speedy settlement of the labor trouble.

In Münster the gas supply of the city has been cut off, owing to a coal shortage due to the strike.

ANT-PAROCIAL AMENDMENT WILL GO BEFORE VOTERS

Janesville Mich.—The state supreme court today ordered that a proposed constitutional amendment to compel children of school age to attend public schools be submitted to the voters at the November election.

The amendment is known as the anti-parochial school amendment and is sponsored by James Hamilton, Detroit, head of the Michigan Public School defense league.

The supreme court, in its ruling, granted a writ of mandamus to Hamilton to compel the secretary of state to put the proposal on the ballot.

FLIGHT MAY BEGIN TODAY

By Associated Press.
On Board U. S. Coast Guard Cutter Haida, at Attu, Alaska—Snow and fog, last night it was feared, probably will prevent the departure of the three United States army air-cruisers from Attu Island for Adak Island, on the western end of the Aleutian archipelago.

Nothing was in readiness yesterday for the 520 mile jump but unfavorable weather conditions delayed the departure of the planes. A heavy fog hung over the territory most of the day, while snow fell at intervals.

No word has been picked up by the Coast Guard cutter Haida's radio as to the whereabouts of Major Frederick L. Martin, missing commander of the expedition.

Later—the weather was moderating and clearing here in the night and a jump today by three army planes circling the globe seemed likely.

DENY PROTESTS ON INCREASED RATES

Madison.—No protest against the increase of 15 per cent in compensation insurance rates ordered last week by the state compensation board have been received by the board today.

W. W. Broughton, secretary of the board, said today. He further stated that the "national bureau of compensation" had recommended a graduated increase much larger than that ordered by the board.

WATERWORKS VOTED FOR KIMBERLY

Appleton.—Voters at Kimberly, Wis., have decided in favor of municipal waterworks system at a special election.

Madman Shot to Death by Police

By Associated Press.
Kansas City.—A man believed to be Peter P. Ghaslin, 27, of Pierpont, Mich., today was shot and killed by two policemen in the lobby of a downtown hotel.

Wearing high top boots and a corduroy suit, he strode into the lobby, leveled a revolver at the clerk and three guests, drew a knife from his pocket and demanded that the men help him find "that girl who lived here a year ago."

When the police arrived they found the four men lined up against the wall with their hands in the air and Ghaslin seated in a chair, saying "I am not a madman."

The police returned the fire and Ghaslin fell over dead.

Peter said he answered the description of a man who an hour earlier had amuck near the Union station, firing two shots skyward before he disappeared.

REPORT ON POOR RELIEF ACCEPTED

Probable Supt. Cullen Will Administer Aid for Entire County.

Abolishing of the two poor relief commissioners in the north and south sections of Rock county, as predicted, was virtually put through by the board of supervisors on the report of the special committee read by J. A. Marshman, Janesville supervisor, during the county board meeting Wednesday.

The change, putting Archie Cullen, superintendent of the Rock county farm and asylum, in complete charge of poor relief administration, would become effective June 1, 1924.

Poor relief administration has been discussed at every county board meeting since the board was organized.

The report was accepted without a dissenting vote by the board and adoption of the new plan was made a special order of business for 3 p. m. Thursday.

Lodge Urges World Court

By Associated Press.
Washington.—Establishment of a world court at The Hague, to which the United States would adhere, was proposed today in a resolution introduced by Senator Lodge, Massachusetts, chairman of the foreign relations committee. For the purpose of creating the new tribunal, President Coolidge would be "respectfully requested to propose the calling of the third Hague conference."

SENATE VOTES FOR GIFT TAX

By Associated Press.
Washington.—The senate today approved without a record vote a gift tax bill, which would tax gifts of more than \$1,000 a year.

Modified rates were accepted to conform with the schedule for the inheritance tax approved last night, starting at 2 per cent on \$25,000 and graduating to 25 per cent on gifts over \$50,000.

DENY USE OF MAIL

Washington.—Postmaster General New issued a fraud order denying use of the mails to the Union Home Builders of St. Louis.

"DAMN," THUNDERS MAGNUS, AS SENATE GASPS IN HORROR

Washington, D. C.—Magnus Johnson made a speech Wednesday that could be heard anywhere in the capital, saying, while talking of the Gooding bill, that it was a "damned" bill.

The bill, which would give the federal government the right to take a "damn" bill, Senators gasped but Magnus went on without a tremor of the eyelid, warning the senate that some farm legislation must be passed at this session.

RAILROADS FIGHT BILL FOR NATIONAL ADJUSTMENT BOARD

By Associated Press.
Chicago.—John Barry, pal of "Big Tim" Murphy in the \$1,000,000 Dearborn station robbery in 1921, and under bond of \$50,000, escaped from the federal building today after the United States circuit court of appeals had affirmed his prison sentence of four years. Barry quietly walked out of the court room unobserved.

Coolidge Calls for Action on Farms

Washington.—The general legislative situation in the senate, particularly with reference to tax and farm relief bills, was considered again today at a round-the-breakfast-table conference at the White House.

President Coolidge had as his guests Senators Edge, New Jersey; Warren, Wyoming; Cameron, Arizona; Phillips, Colorado; and Hale, Vermont, all republicans. The discussion was devoted to the general situation in the senate and the president's endeavoring to obtain some unity of views on the minor legislative problems remaining before the senate.

Desire for some sort of farm relief legislation reiterated by Mr. Coolidge, but he did not indicate he was ready to accept in its present form the McNary-Haugen bill, generally supported by the farm bloc and the republican insurgents.

Janesville Railroad Man Is Victim of Swindle by Fake Agent; Loses \$1,000

Adolph Bellan, a laborer for the C. & N. W. railroad, who rooms at 511 Laurel avenue, is minus \$1,000 in gold because of a swindle by a fake agent.

One of the smoothest confidence games played in Janesville in many a day. And while the victim, a coal shoveler, remains the loss of his savings is several years' Janesville police are making efforts to locate a large, heavy-set man with a moustache, known to Bellan only by the name of "George," and posing as a real estate agent.

It all happened this way, according to the story related to the police.

Drove \$1,000 From Bank.
George, the confidence games operator, struck up a friendship with Bellan Sunday and told him about some lots near the cemetery which he would like to sell. Bellan's interest was aroused and on Tuesday it was arranged that they take the lots and complete the sale of them.

They met in a local bank and Bellan asked to withdraw \$1,000 from his savings account. Although advised by the cashier to take a certificate of deposit, "George" persuaded him to insist on getting the cash.

Stopped by Accomplice.
The hopeful purchaser of the imaginary real estate received the money from the bank and handed it to the "agent," who presumably placed it in a new grip he had just purchased. The grip was locked and they proceeded up Milwaukee street to look over the lots, Bellan carrying the valise which supposedly contained the \$1,000.

After going a few blocks, "George" was halted by an accomplice, telling Bellan he would return in a moment, disappeared and did not come back. The railroad laborer did not become suspicious until several hours later, when he took the locked bag to a leather goods dealer and had it opened. He was assured that the money was safe, but when he moved the package of supposed bills and found it to be only a fake packet. The roll of genuine bills had been cleverly exchanged for the fake by the "George" when he put it in the grip at the bank.

SENATORS IN HOT DEBATE ON DELAY OF JAP EXCLUSION

By Associated Press.
Washington.—The senate heatedly debated the immigration bill today, with democratic and republican spokesmen bitterly assailing the conference report postponing Japanese exclusion.

Senator Robinson, Arkansas, the democratic leader, opened the attack and was joined immediately by Senators Borah, Idaho, and Johnson, California, republicans.

The provision directing negotiation of an understanding cancelling the gentlemen's agreement, adopted at the suggestion of President Coolidge, was assailed as an abrogation of the principle that immigration is a purely domestic question.

JAPS HOPE FOR LITTLE RELIEF ON EXCLUSION

Tokio.—Although newspapers here issued extra editions today announcing the decision to postpone operation of Japanese exclusion from the United States until next March 1, little excitement was created by the news. The majority of the officials, while appreciating the efforts of President Coolidge to effect a compromise that would not offend Japan, refused to believe that any negotiations can achieve an agreement which would be much better than the exclusion clause of the immigration bill.

POTATO SCAB CUTS PRICE AT MARKET

County Agent Details Methods Used in Protecting Potato Crop.

By R. T. GLASSCO

Answering a question as to how the farmers of Rock County could make more money, Adolph C. Glassco, county agent, stated that the farmers should treat their potatoes for scab so that they could be sold to the local grocers. He, as well as the other grocers of Janesville and other Rock County towns, are anxious to use home grown potatoes, but on account of the poor quality, many of them cannot be used.

There are three very effective ways to treat potatoes: one, the corrosive sublimate method is efficient but rather dangerous. Use four ounces of dissolved corrosive sublimate in 10 gallons of water. Soak the seed at least 1.5 hours. The solution can only be used four times. A wooden container should be used, as brass or iron will be corroded. Treat unsprouted potatoes before cutting. Do not treat in gunny sacks. Dry the potatoes immediately. Corrosive sublimate is a deadly poison and should be kept away from children or livestock. If the containers are to be used again, they should be thoroughly scalded.

Treating by the cold formaldehyde method is satisfactory, although all the potato diseases are not controlled by it as they are by corrosive sublimate. Use 1 pint of 40 percent formaldehyde to 30 gallons of water. Soak two hours. Potatoes should be treated at once before they become sprouted to any extent. Put in a clean dry place and they will be all right when planting time comes for late potatoes.

The hot formaldehyde treatment is effective, but more difficult to use. One pint of formaldehyde is used to 75 gallons of water and the solution is kept at a temperature of from 118 to 122 F. Immerse the potatoes two minutes. A gunny sack may be used and then it is advisable to keep the potatoes covered with a canvas for 50 minutes before drying. This method is recommended by the Iowa

One of the reasons for the excellent stand of alfalfa and clover in Rock County this year is the great amount of limestone which has been used. Up around Evansville where one of the Farm Bureau limestone crushers has been in continuous operation for the last two years one may see very fine fields of alfalfa.

John Robinson and Sons, the noted Hereford breeders of Rock County, have used 250 tons of limestone on their very fertile farm. They are putting in 35 acres more of alfalfa this year on limed land.

Orrie Steele, a neighbor of the Robinsons, has used over 300 tons of limestone on his 120 acre farm and has only 20 acres more to cover with limestone until his whole farm will be covered.

Steele is conducting a five acre demonstration plot for the College of Agriculture. Different kinds of fertilizers and rates of application are being used on each plot.

Steele has 15 acres of Grimm alfalfa which he is going to save for seed if it looks as though it will produce enough to be profitable. He also has 10 acres of common alfalfa and is seeding 15 acres of sweet clover and 10 acres of alfalfa.

The farmers around Evansville, as well as in practically every section of Rock County, are getting more enthusiastic every year about alfalfa. Some farmers last year got as high as 3 1/2 tons per acre of hay, which is worth \$25.00 a ton. It is one of the most profitable crops which can be raised.

700 HIGH SCHOOL MUSICIANS MEET

Competition in First Annual State Meet Starts in Madison Thursday.

Madison—More than 700 Wisconsin high school musicians were scheduled here today to begin competition in the first annual state high school music contest, as one of the main features of the state's music week program. The contest is being conducted by the University of Wisconsin school of music and will continue through tomorrow night.

Bands, orchestras, glee clubs and mixed choruses in addition to individual competition, will be staged.

Green Bay is entered with eighty high school musicians one of the largest individual representations in the meet. Other schools that have competitors in the events of music include: Elkhorn, Racine, Reedsburg, Washington high school, Milwaukee, Mineral Point, Manitowish, Janesville, Plainfield, Cornell, Lad, Cambria, Lake Mills, Seymour, Waupun, Mayville, Mt. Horeb, Watrous, Beaver Dam, Clinton, River Falls, Harley, Delavan, Jefferson, Kenosha, Milton, Muskego, Sharon, Waunakee and Madison high schools.

The events scheduled in the meeting include: solo competition in voice, piano and violin; girls' glee clubs, mixed choruses, orchestra and bands. High schools are rated according to their enrollment in classes A and B.

Individual and team trophies will be awarded for winners in individual events as well as team points. University musical societies have offered a large silver loving cup to the high school winning the largest number of points.

For solo events, a gold pin will be given for first place. For group events, loving cups will be given for first and second places.

The meet brings together which is claimed to be the largest group of amateur musicians ever gathered in the state. It is designed primarily to stimulate interest among high school students in musical endeavor. The contest will be an annual affair, it is planned.

APPLIES TO CITIES AND VILLAGES IN ALL ROCK COUNTY

(Continued from page 1)

These votes to exempt cities on the first ballot were for Young, Christ, Brundage, Doty, Edlund, Riley, Knight, Markham, Bligham, McGowan, Richardson, Walker and all others voting to kill the exemptions and make the ordinance county-wide in authority.

At Wednesday afternoon the disputed Rock county dance hall ordinance came up for discussion and it was discussed. Attempts to have the ordinance put over for a special order of business were blocked and the referendum act came in for a general reading with few defenders.

The main issue is whether the county ordinance shall be uniformly applied throughout the county or whether cities already having a complete set of laws regulating dancers shall be exempted, Janesville, through City Manager Henry Traylor and City Attorney Roger Cunningham, made a strong bid to have the county seat exempted on the contention that the present city ordinance dealing with public dances is more strict and enforced to the letter.

In addition to the inspector, the city manager declared that the city force also inspected for sanitation, during the week, a letter from the city manager to the police chief, dated each public dance to co-operate with the woman inspector.

There appears to be no question but that the county has the legal right to enforce a county ordinance and make it effective in the city, regardless of any present municipal ordinance. The county ordinance was passed by a vote of 15 to 10, and empowered as a deputy sheriff. The present Janesville ordinance calls for a yearly license of \$10 and a license fee of \$2 going to the inspector.

Section by section the board went through the ordinance and approved the first 12 and then the debate waxed warm on the last, section 12. The only change made was to prohibit any dancing on Sunday, a provision suggested by Supervisor A. C. Gardner and passed by the board.

Exemption of cities brought out the arguments. When the Janesville city officials were through speaking in favor of the exemption, the board demanded to know whether Janesville was in Rock county and located from county laws.

Believing in a uniform ordinance throughout Rock county, the board passed the ordinance. The ordinance was passed by a vote of 15 to 10, and empowered as a deputy sheriff. The present Janesville ordinance calls for a yearly license of \$10 and a license fee of \$2 going to the inspector.

Law Not Enforced. Bank violations of decency at village dance halls were reported by R. E. Acheson, who declared that the law should be enforced.

The plain purpose of the board in the ordinance was to put a decided curb on public dancing but not to eliminate it. It was reported dances had been reduced in Janesville by the city ordinance and careful regulations enforced.

Under the county ordinance a public dance is any at which the sale of fermented liquors is authorized by payment of the exception of those conducted in a church or parochial school under the auspices of the proper church authorities. A code of municipal club or invitation dance in which attendance is not strictly limited, is declared to be a public dance subject to ordinance regulation.

Seek Aid for Fair. Appointment of a committee of three by Chairman E. E. Snyder to investigate the granting of county aid to the Rock county fair at Janesville and the Janesville fair, was ordered by the Rock county board on Thursday.

Approval of the county aid was made by J. A. Craig, Janesville, and the Rev. Father W. P. McDermott, speaking for the county fair.

Both fairs were in full accord on the program of advancing the agricultural interests of the county, especially the junior club and demonstration for the rural boys and girls. Both fairs have been losing money and it was declared the fairs were an active agency in promoting agriculture and keeping the county before the public.

Consolidation is Suggested. "Fairs have ceased to be plain amusement," declared J. A. Craig, and one exhibition has become a business. "People in and near Janesville die down in their pockets to finance the county fair for the reason they believe it is a loss to the county," declared Father McDermott. "Both fairs belong to Rock county and are one way of bringing out the fact that the farmer is the citizen of the United States."

The junior exhibition to be followed at the county fair was decided. General opinion among the supervisors was that the fairs should be consolidated in some manner. A report is expected back during the present session.

ENTIRELY UNPROFITABLE. Two women were discussing their home troubles, when one asked: "By the way, what is your husband doing now?"

"Oh," said the other, "he's just a settin' round tellin' what's goin' to happen next election."

"Then he's a prophet."

"No, he ain't so far as this family is concerned he's a dead loss!" Exchange.

Miss Virginia Schroeder, 871 Glen street, is home from Mercy hospital, where she had her tonsils removed.

C. V. Korch, 126 Jefferson avenue, was in the northern part of the state, Wednesday, by the death of his brother-in-law, H. D. Boyd.

DETAILS OF DOME WORKINGS TOLD

Spectators Desert Formerly Popular Hearing Room in Oil Quiz.

[BY ASSOCIATED PRESS] Washington.—In a committee room, now destitute of spectators, the practical details of oil production on Teapot Dome and Elk Hill were described for the senate oil committee by H. Foster Bain, director of the bureau of mines.

How show there was all in Teapot Dome below the second wall crack and, Senator Walsh, committee proponent, asked Director Bain about the drilling of a well to the third wall crack and, the witness said, this well was producing about 50 barrels a day.

Seven or eight oil wells have been drilled under the Doherty lease on the Elk Hill reserve, the director said, and have produced about 1,500,000 barrels. Most of them, he told the committee, were offset wells. The actual average royalty paid by Doherty was 25 per cent in December, the witness testified, and is now 26 per cent. He said there had been no new drilling under the Doherty lease since the senate investigation began.

Director Bain declared the oil in Teapot Dome is not suitable for naval fuel use, and could not be economically prepared for such use.

Behlman-Folkers Wedding, Delavan. Delavan.—Charles Behlman and Robert Folkers, both of Delavan, were married at noon, Thursday, at the home of the bride's parents, Mr. and Mrs. Frank Behlman, near Delavan, by the Rev. C. Wesley Boak, pastor of the Methodist church.

A large white wedding bill and amid a background of ferns and potted plants, the bride wore a sand georgette gown and carried a bouquet of sweet peas and roses. Attending the couple were Clarence Behlman and Madeline Folkers, Miss Irene Vogt played the wedding march.

A wedding dinner was served at a long table, prettily decorated, with Misses Marian McGrath and Grace Hemming as servers. After an automobile trip, the couple will be at home near Delavan.

60 DAYS FOR MAN ARRESTED AT LEYDEN

Arrested by Turnkey Charles Bentley parked in a car on a road near Leyden on Wednesday. Sidney Bentley was arraigned in municipal court, Thursday, on a charge of intoxication.

He pleaded guilty and was given 60 days in jail in default of a \$50 fine, the court explaining that a heavy sentence was justified by the indication that Bentley had been driving while intoxicated, although his car was standing still when he was taken into custody. Costs amounted to \$25.

It is said that in India the widow burns herself for her husband. The American widow sometimes takes another and roasts him.

Janesville community No. 2, K. T. Masonic temple, 12:

WALWORTH COUNTY

ELKHORN

SHARON

MRS. GRANT HARRINGTON.
Elkhorn—The first concrete pouring on county roads this year began Wednesday in Lake Geneva by the Birdsall company. Few know that 100 years ago (1834) an English bricklayer named Joseph Adams built the first concrete bridge in the world. The bridge was built at the site of the present concrete bridge and was called "Portland cement" because when his material hardened it resembled a building stone quarried on the Isle of Portland. This is an important date in industrial history and will be observed by various organizations in the building field.

The Frank Holton & Co. factory began a new schedule of work Wednesday of eight hours per day and no Saturday production work during the fall for the summer.

A lecture course of four numbers is assured for Elkhorn the coming winter. The Kiwanis club will sponsor the programs by the Emerson Locomotive company, Chicago.

Roy E. Shepard, Hanks, and O. J. Jones, Elkhorn, and O. J. Jones, Elkhorn, have applied at the county clerk's office for a marriage license.

Friends of the Rev. William Phillips, Grand Haven, Mich., recently learned that last week he directed the Grand Haven dramatic club in the presentation of "The Sign of the Cross" at the Grand Haven church.

Mr. and Mrs. Charles Nott were called to Geneva Wednesday by the death of Mrs. Nott's sister, Mrs. Frank Culver, who recently came to the home of her daughter, Mrs. Leta Bloom, Geneva.

Mrs. James I. Stokes accompanied her daughter, Cynthia, and Juliet Sprague to Madison Thursday. The young women are to be brides of Miss Margaret Bell, University of Wisconsin, and will remain over Friday night to attend a fraternity party.

Mrs. Frank A. Bell, Elkhorn, is the guest of Mrs. Frank Ledger, Kenosha, for two weeks, and will return Friday.

Mrs. Helen Mitchell Corcoran, California, left for Elkhorn Wednesday to attend the funeral of her mother, Mrs. Ellen F. Homestead.

Mrs. Henry Corcoran and son, Lyle, Elkhorn, visited Mrs. and Mr. Robert Garrison the first of the week. Mrs. Annie McCarthy, Elkhorn, came Tuesday to attend the funeral of W. N. Cobb, Wednesday, and was the guest of Mrs. Hal Wolfe.

Arthur Maultz, who has been employed in the county highway office for some weeks, went to Milwaukee Tuesday to resume work in the state highway department.

Miss Ella Kneller accompanied the high school glee club to Madison, where she will direct the club's musical section.

Mr. W. Burch, teacher of the school bands, went to Madison with the boys to direct their playing Friday.

The Sunday school convention in Delavan Wednesday called out a good attendance from Elkhorn. Representatives from each of the churches attended—four automobiles from the Methodist church; Mrs. A. J. Johnson, superintendent of the Congregational church, took a load, and several went from the Baptist. Mrs. Henry D. L. Adams accompanied her class of high school girls over in the evening to see the parade.

FONTANA

Fontana—Mr. and Mrs. John Fritz and Mr. and Mrs. Frank Petrofsky, Harvard, Ill., called at the Charles Long home Sunday.

Mr. and Mrs. William Borington and Mrs. Ida Smith and daughter Evelyn, spent Sunday afternoon with Mr. and Mrs. Russell Smith, near Big Foot prairie.

Mrs. Jacobson, Beloit, called at the home of her brother, Lyle Saturday night.

Mr. and Mrs. Rudolph Gloor and daughter, Jane, Elkhorn, spent the week end with her parents, after spending a week in their cottage at the lake.

Mrs. George Orutt is ill. Chicago. Miss Blanche Stevenson, Chicago, spent the week end with her parents, Mr. and Mrs. Claude Stevenson.

Mr. and Mrs. Peter Hezel, Elkhorn, are spending a week at the home of their son, Charles.

Leola and Helen Sullivan called in Delavan Wednesday night.

WHITEWATER

MISS ALICE MARSH.
Phone 232-11.
White-water Circulation, 100-W.

Whitewater—The St. Olaf Concert band played at the normal and high schools Wednesday afternoon and gave a concert Wednesday night in the men's gymnasium to a large audience. The members of the band were entertained by the members of the First Evangelical church.

J. K. Kyle, vice-president of the Young Men's Progressive association, and Lyle Fierman attended the annual convention held at Madison Tuesday night and took a prominent part in the meeting.

DARIEN

Darien—Mrs. Rodney Weaver spent Monday in Clinton.

The remains of the late Mrs. Chas. Hillman, Lang, was brought here from Chicago Monday and interred in the family lot in the Darien cemetery.

Mrs. A. L. Brothman entertained the Fairfield Book club Tuesday afternoon.

John Mawhinney was in Chicago Tuesday having shipped a car of cattle to the city.

T. R. Brigham and men are building a cottage at Lauderdale Lakes.

The M. E. society meets Thursday afternoon with Mrs. Ida Williams.

The W. R. C. have rented Room 11 and henceforth will hold their meetings there. They are planning to hold a poppy day soon.

Joseph Johnson returned Tuesday from a few days in Milwaukee.

S. S. CONVENTION
SELECTS OLD HEADS

Presidents Re-Elected at Close of Enthusiastic and Earnest Meeting.

(SPECIAL TO THE GAZETTE)
Delavan — Acclaimed as one of the finest meetings ever held, the joint sessions of the Rock and Walworth County Sunday School conventions closed here Wednesday night with an evening meeting at which a program "David the Courageous" given by 60 Delavan Sunday school children and directed by the Rev. Ingram Bill of Beloit, was the feature.

Re-Elect Presidents
Presidents of both Sunday school associations were re-elected. Fred M. Day, chairman of the Rock County association, and E. P. Hocking, Janesville, of the Rock County body, being the incumbents. I. B. Davies, Delavan, was re-elected vice president of the Walworth association and Miss Ethel Pramer, Sharon, again secretary-treasurer. Divisional superintendents are Mrs. O. B. Winne, Honore Creek, and Mrs. J. W. J. Schulz, Walworthville; Fred L. Taylor, Sharon, educational and Mrs. Maude Williams, Elkhorn. Walworth county officers are: Rev. H. J. Bailey, Edgerton, vice president; Miss Keith Ball, Beloit, secretary; H. O. Meyers, Evansville, treasurer, and divisional superintendents, Mrs. J. C. Olson, Janesville, children; Miss Mary Barker, Janesville, young people; Rev. Eldred Charles, Postville; Rev. H. A. Stadelbacher, Beloit, administrative and J. P. Cameron, Beloit, educational.

Mrs. O. B. O'Brien, Janesville, who has been one of the most faithful workers in the Rock County association, retired as secretary.

MORE
Beloit Church Has 28.

A total of 362 delegates from the two counties were registered at the convention, 206 being from Rock County and 156 from Walworth. The Second Congregational church of Beloit had all other churches, sending a delegation of 22 and the Baptist Christian church of Beloit sent 26. The two county associations will hold separate meetings next year, the Rock County at Janesville and Walworth at Beloit.

Plain Talks Effective
He said that as a corrective measure, it was found that plain talks with parents and teachers, directed at 60 per cent of these children and that religious instruction brought about an 85 per cent betterment in the attitude of the children towards disobedience.

An especially interesting part of the program was the present given under the direction of the Rev. M. J. Holt, who in his capacity as pastor of the church of Beloit, having but one rehearsal the children staged the story of David and Goliath, in costume, and with lighting effects, which brought generous applause.

In his talk preceding the staging of the play, Mr. Holt declared that through the children's efforts, the most successful religious instruction is being given to the children. He declared the stories which were acted, would form a lasting impression upon the young children.

Divisional Meetings
Miss Edith Town, state children's work superintendent, and another speaker at the evening session, at which Mr. Hocking presided. The devotional service was conducted by the Rev. Mr. Chalmers.

Much helpful information was secured by those attending the afternoon divisional meetings of the children, young people, and adult-administrative departments. Mrs. Nathan Cobb, Delavan, Mrs. E. P. Hocking, Janesville, Mrs. Frank Drummond, Honore Creek, spoke at the children's meetings; the Rev. Mr. Holt, Janesville, the Rev. Mr. Bailey, the Rev. Mr. Stadelbacher, Glencoe, and the Rev. Mr. Vanhook, at the young people's meetings. Speakers at the adult-administrative and educational departments were the Rev. Mr. Charles J. C. Hanchett, Janesville, Mr. Hocking and the Rev. A. D. McKay, Clinton.

Holt Is Speaker.

Frank O. Holt, Janesville superintendent of schools, gave an address during the afternoon session. "The Business of Being a Teacher." The meeting was one of the largest ever entertained in Delavan and was regarded by officers of both associations as a great success. One hundred and twenty-five were served luncheon and supper at the Baptist church and the other delegates had meals at local restaurants.

THREE JUDGMENTS GRANTED BY DEFAULT

Three default judgments were awarded by Judge H. L. Maxwell in municipal court here Thursday, for amounts aggregating \$150.00 against Edgerton companies. The La Salle Extension university, Chicago, was awarded judgment for \$117.20 against Benton Rockwell on a note for \$150.00 dated July 29, 1921, on which only \$37 had been paid. The Zenith Radio corporation obtained judgment for \$128.00 against the Hadden Music company, Edgerton, for a radio set. The third judgment was for \$137.41 in favor of the Continental Casualty company against S. E. Madden & Son, Edgerton, for amounts underwritten liability insurance. P. N. Grubb represented all three plaintiffs, and there was no appearance on the part of the defendants.

NEW LIBRARY BOARD WILL MEET FRIDAY

Two new members of the library board, Stephen Tolles, editor of the Gazette, and Henry Traxler, city manager, are expected to take their places at the first monthly meeting since the appointments were made to be held in the library at 4:45 p. m., Friday. Election of officers will probably not take place until the end of the fiscal year, July 1. Other members of board are J. A. Markham, George Schell, Mrs. A. L. Lovejoy, Mrs. J. G. Rexford, Fred Lemons, Miss Elizabeth Patterson, P. A. Capelle and P. O. Holt.

Many Offers Are Filed for Laying Out Golf Course

Offers to build, inquiries for jobs, literature on grass seed—all sorts of dope is being received from many sources to help Janesville put across its municipal golf program.

The status of the plans is that the topographical map of Riverside park, where the links are to be constructed, has been completed. Attention is now being given to the selection of a landscape and golf architect. Estimates are being received for books at \$10 for 50 rounds of 18 holes to the round to procure money in advance for financing the course. Other workers are being sought for larger amounts as subscriptions. Coupon books are now being printed.

A half a dozen golf architects have written the city manager and others concerning the project. The project is being discussed in the city council. Interviews or stating prices for laying out the course.

The latest local booster action has been given by the Elks lodge, which has given a set of clubs to the project. The project is being discussed in the city council. Interviews or stating prices for laying out the course.

The first golf accident has been recorded. A local girl, who had been given a set of clubs, was hit by a golf ball while playing on the links. The project is being discussed in the city council. Interviews or stating prices for laying out the course.

Musicians Leave for State Contest

Competing for the first time for state honors in music, Janesville high school was represented by 23 musicians, who left here for Madison Thursday morning to take part in the first annual state music contest under the auspices of the University of Wisconsin school of music which is being held there this week. They are not expected back until Saturday morning. Three soloists, Jessie Chas. and Stella Olson, piano, and Verne Olson, boys' vocal soloist, with the girls' glee club, of 24 pieces, made the trip. They were accompanied by Miss Lerdia Hanson, supervisor of music, and Marie Hap-Auska, accompanist.

In all, about 700 music students were expected to take part in the contest, representing more than 20 Wisconsin high schools. The pupils will be entertained by campus festivities and sororities while in Madison.

WHA, the University of Wisconsin broadcasting station, will transmit the closing of the contest at 7:30 p. m. Friday on a wave length of 350 meters.

Start Erecting Crossing Signal

Work has been started by signal men of the Chicago, Milwaukee & St. Paul railway in the erection of a crossing signal at the intersection of Highway 100 and Highway 101, north of Janesville. It was at this crossing that Frank Albrecht was killed about a year ago when a train struck his automobile.

BADGER COUPLES GRANTED LICENSES

Rockford — Among the Wisconsin couples granted marriage licenses here this week are Arnold Wilberg and May Jensen, Stoughton; George C. Brown, Minneapolis, and Hazel Helen Brown, Janesville; Floyd C. Ruml, and Mrs. Edith Miller, Port Arkison; and Arthur G. Hansen and Margaret Johnson, Beloit.

KIWANIS HEARS
C. OF C. REPORT

Need 150 More Signers to Complete the Needed Membership.

With but one more day to go, 412 memberships had been procured for the local Chamber of Commerce in the drive that has been in progress since Tuesday. This was announced at a meeting of the workers luncheon with the Kiwanis club at home Thursday at the Grand hotel.

Thirty-nine memberships were signed since Wednesday noon. With a goal set at 550 as the essential number in order that the chamber may continue with the same efficiency as during the past three years, P. J. E. Wood, speaking for the board of directors of the chamber urged all canvassers to make a tremendous effort in the final few hours of the campaign. He stated that Thursday will be a crucial day, determining whether the organization shall continue to operate as well as in the past.

The Report on the Poor Relief.

The report submitted to the county board
 concerning the administration of county poor relief
 brings forcibly to the front the subject which has
 been discussed in the columns of the Gazette for
 several days and to a point where something tangi-
 ble may be looked for in correcting present
 abuses.

No one who has read what the Gazette has
 printed could be otherwise impressed than with
 the feeling that the money of the taxpayers was
 being paid out for something unjust and that the
 dollar was not circulated at full value.

We cannot always measure these things by the
 standard of materialism, though hunger and
 nakedness are very material things. We are quite
 sure the administration of poor relief could not
 be worse than it is and any change worked out
 along lines suggested as remedial, by Supervisor
 Markham, would be welcome.

The senate sewed so many patches on the tax
 bill that no one can find the original.

The Eclipse of Hiram.

Hiram Johnson's name is presented to the
 republican national convention at Cleveland and
 it will be received, but few scattering votes—so
 few that they will not make more than the 25
 which will be given by Wisconsin to Robert M.
 La Follette. The result of the primaries so far
 and the indications for the primaries yet to come
 are that Calvin Coolidge will have nearly 1100
 votes in the convention, almost unanimous. Also
 there is great possibility that Hiram Johnson by
 that time will have effaced himself so that he
 will not be voted for at all. Many things may
 happen between now and June 12, the day the
 nomination will be made.

There was a time when the name of Johnson
 was one to conjure with. Four years ago he was
 an outstanding candidate. He was given the
 support of a large percentage of those who had
 been Bull Moose 5 years before. He held the
 confidence of these men to a great degree. In the
 last four years that has been dissipated. Mr.
 Johnson was neither of the old guard or of the
 progressives. He failed to give support here and
 there when it was needed, for those measures of
 which at one time he had been advocate and
 champion. He was not strong enough in his
 individuality to set as does Senator Borah—with-
 out party affiliation of any binding character or
 to blaze a trail for himself.

In these presidential primaries it also should
 not be overlooked that Calvin Coolidge has been
 presented with the evidence of the faith of the
 people. They believe in him notwithstanding the
 fact that in many things they disagree with him
 on certain points of political policy. They believe
 in his honesty, in his squareness, in his cleanliness
 and that he will stand without hitching. Also
 they feel that more ties of party or party dis-
 tinction will not swerve him from what he believes
 to be right, just, and honest.

Now that Hiram Johnson has been defeated in
 California maybe the quarantine against the foot
 and mouth disease will be lifted.

Calling the State Guard.

Among other humors of the day put down the
 proposal to call out the state guard for the pur-
 pose of enforcing the quarantine against the de-
 vastating foot and mouth disease from the Pa-
 cific coast. Here we have the very crowd that
 wants to wipe out the guard in its entirety figur-
 ing on using this fine body of men in an emergency.
 That is what the guard is for—emergencies in
 which expression of authority must be enforced
 in such detail that no other organization can take
 its place. The military arm does not mean that
 we shall go to war, or as a Janesville alderman
 once said, "to shoot us down," but to be the finest
 type of peace officer when one or more men
 could not possibly do the work set down for the
 guard.

Lieut. Governor Comings is up in the patriarchal
 class but when he takes a wallop at Blaine he
 hits like the celebrated J. Dempsey.

Saving the Jap Face.

The acceptance by the senate of the president's
 proposal that the immigration law excluding the
 Japanese should not be effective until March 1,
 1925 will not seriously be opposed. In the mean-
 time whatever of pride, false or otherwise, has
 made the Japanese serious about his exclusion
 may be arranged by a treaty to take the place of
 the gentleman's agreement. But it may as well
 be understood that nothing can be changed with
 acceptance of the people of this country which
 will permit any immigration of Japanese into this
 country. That has been settled.

May we ask Nickle Butler what he thinks
 about the enforcement of the law against stealing
 automobiles?

SERVICE FOR SEAMEN.

By FREDERICK J. HANSEN.

Washington.—Making the shore safe for seamen
 has lately become one of the chief activities of
 the Young Men's Christian Association. Head-
 quarters have been established in various Ameri-
 can and foreign ports, where comfortable beds,
 good food, pleasant lounging rooms and whole-
 some recreation facilities are provided at reason-
 able cost. By this provision it is hoped to rescue
 the man on shore leave from the many difficulties
 and temptations that beset him.

It is estimated that in the port of New York
 alone 30,000 seamen are on shore leave daily.
 They can not afford the high-priced hotels, and
 the cheaper hotels in port cities are always crowd-
 ed. Suddenly deprived of the discipline of the
 ship and without home ties to anchor them, they
 drift into doubtful rooming houses and question-
 able enterprises deliberately designed to take all
 of their money away from them.

For years, it has been generally accepted that
 the average sailor on shore leave is a dissipated
 and disorderly fellow, shunned by the righteous
 and until recently frequently denied admittance to
 orchestra seats in the theaters. The war slightly
 changed this popular conception, and the "Y" is
 now showing it to be altogether mistaken.

It has found that, given the same sort of ad-
 vantages habitually enjoyed by landlubbers, the
 average seaman is not any more inclined to wicked-
 ness and riot than they are. His wants are ex-
 tremely simple, his impulses quite conventional,
 and he is easily influenced by suggestion.

Under the influence of the New York "Y" seamen
 are even exhibiting interest in the Metropolitan
 Museum and attending psychology lectures in
 Cooper Union. They patronize the city's the-
 aters, cabarets and dancehalls without having to
 be bailed out of jail the next morning. And in-
 credible as it may seem, many of them who are
 supporting families in other ports, prefer to spend
 their evenings in the "Y" recreation hall, reading
 or playing chess and mah jong.

This is not due to any ethical pressure exerted
 by the "Y" but largely to its atmosphere of com-
 panionship and comfort. "What the man on
 shore leave needs," said one of the officers re-
 sponsible for the seamen's headquarters, "is a
 clean bed to sleep in, supplied at a reasonable
 price; good food; a place in which to store his
 baggage; a safe depository for his money; writing
 tables and stationery for correspondence; a place
 to receive mail, to purchase supplies needed for
 the next voyage at fair prices, to obtain employ-
 ment without charge, and to receive people from
 home. In other words, these men need the ben-
 efits of a clubhouse, where they may find the
 comforts and companionship so sorely missed by
 those who live a nomadic existence."

The "Y" aims to be a little more than a club-
 house, however. It also arranges to look after
 sick and indigent seamen who are suddenly land-
 ed in the city without aid of any sort. Its agents
 see that the sick man is placed in a hospital,
 where they make frequent visits until he has
 fully recovered. They take him books to read,
 provide him with writing materials, and attend to
 any purchases or business he wants transacted.
 When he is once more able to be about, they help
 him to find further employment. If it becomes
 apparent that a man, through injuries or age, is
 disabled for further work, they get in touch with
 the proper authorities for placing him in a seaman's
 home.

Indeed, the social service of the "Y" goes to
 unusual lengths. Its agents even visit incoming
 and outgoing vessels regularly for the purpose of
 securing full information as to the personnel of
 the officers and crew, to find out the special needs
 of any particular member of the crew, and to sup-
 ply in so far as possible the games and magazi-
 nes required.

This information is transmitted through the
 medium of standardized ship reports to other "Y"
 branches operating at the next port of call, so that
 a man possibly neglected by one branch may be
 fully investigated and cared for by another. In
 this way, the seamen's service of the Association
 becomes virtually international in character. Sup-
 ported largely by contributions from the various
 steamship companies, it really does the work of
 the personnel bureau of a huge corporation or
 of many corporations and factories.

Already the New York "Y" for seamen has
 become so popular that it contemplates moving
 from its comparatively small quarters at 525 West
 Twenty-third street to a much larger building on
 the same street, where the accommodations will
 be more elaborate. As now planned, the three top
 floors will be turned into sort of war, accommo-
 dating 250 men, with separate sections for offi-
 cers, stewards, deck hands and firemen.

Special attention will be given to the section
 for boys employed as cabin boys, apprentices and
 deck boys in an attempt to supply some of the
 home influence lacking in their immature lives.
 A large gymnasium, elaborately equipped, will be
 housed in the basement. The first floor will in-
 clude a lobby, game rooms and a cafeteria cap-
 able of seating 1,000 men. A clinic, an extension
 educational department and social activities will
 be carried on here more thoroughly than has been
 possible with the limited facilities of the old
 building.

Besides the New York seamen's branch, there
 are similar sailors' "Y"s in Brooklyn, Hoboken,
 Newport News, and Seattle. The Brooklyn branch
 deserves special mention because it was the first
 established for marine interests. It came into ex-
 istence in 1922 as the result of a generous gift
 from Mrs. James W. Whitely, a woman who had
 the memory of her husband, a Jakes 200 seamen
 nightly; finds employment for an average of
 100 daily; shaves equally large numbers in its
 barber shop and feeds even more in its restaurant.
 A dunnage room of large capacity and an infirmary
 with three beds are also part of its excellent
 equipment.

The foreign seamen's branches of the "Y" are
 located in Havana, Cuba; Kobe, Japan; Liverpool
 and London, England; Le Havre, France, and in
 Hamburg, Germany and Danzig. Everywhere the
 service of the branches is much the same, except
 that in foreign ports the "Y" agents also attend
 to papers of the men that may need special pro-
 cedure. Here the chance for social service is much
 greater than it is in home ports, because the men
 seldom speak a foreign language and are thus
 greatly handicapped when they fall ill, or are out
 of work. The recreation facilities are also perhaps
 more intensively organized, as the men are eager
 for shopping trips and sightseeing tours.

Max, who is a table steward on one of the ves-
 sels of the American merchant marine, is a good
 example of the "Y" influence on the typical sea-
 man. Going to sea as a cabin boy at the early
 age of ten, Max drifted about the world, first on
 one ship and then another, for some twenty-two
 years without acquiring a bank account. He
 knows a great deal about ships from sailing ves-
 sels to oil-burners, but it is only within the past
 two years that he has known anything at all
 about finance. He had no trouble saving his
 money while on the sea, but as soon as he got
 on land it simply evaporated, for the reason that
 he always carried the entire amount about with
 him in his hip pocket. Now, he puts it in the
 "Y" safe, and from there it goes into a safe in-
 vestment from which he draws a good rate of
 interest.

azine legally infringes on the Washington maga-
 zine is a question. Of course if that name is
 trade marked then the Tribune's magazine name
 is an infringement. If it is not trade marked
 then most any one can start a magazine named
 "Liberty" without trespass. In that case there
 are likely to be a score of Liberty magazines.

JUST FOLKS

By EDGAR A. GUEST.

WHEN WE HAD IMAGINATIONS.
 Oh, the fun we used to know
 In the distant long ago!
 Then a dandelion seed
 Golden treasure used to yield;
 Then a nut in apples we could eat,
 Sure the hither was sweet,
 And the dog which used to be
 Didn't need a pedigree.

Three or four an army made,
 Fit for battles or parade,
 And a sandpile served us well
 For an armored citadel;
 Give us but a plank or two
 And we'd ride the ocean blue,
 Bravely weathering every gale,
 With an apron for a sail.

We had but to think of things,
 Pirate caves or elms of rings,
 And their joy was ours to know.
 We could hunt for buffalo,
 Or in battle bring to grief,
 Many a grim old Indian chief.
 For we had, what's lost to men,
 Real imagination, then.

Now we think all joy is real,
 Something we can touch or feel,
 And we cannot put away
 All the trials of the day,
 Letting fancy turn to gold
 All the common things of old.
 We have lost the power to make
 Pleasure just for pleasure's sake.

Now we can't pretend to be
 Sailors putting out to sea,
 We are slaves to cruel facts,
 Nothing fanciful attracts.
 For the happy days are gone
 When a dream could lure us on;
 We've grown proud and learned to grieve
 And we cannot make-believe.

HOROSCOPE

FRIDAY, MAY 9, 1924.

This should be a most fortunate day, accord-
 ing to astrology. Mercury, Neptune and the Sun
 are all in benefic aspect.

It is a day for making contracts and leases, for
 planning big enterprises and choosing persons to
 carry them out.

Advertising and all forms of publicity are
 particularly well directed.

Neptune is in a place supposed to impart clar-
 ity of vision to both men and women, who
 should today be able to exercise good judgment
 in love affairs as well as in business.

Again there is a good sign for oil and oil specu-
 lation which will gain the confidence of many
 cautious persons.

Both men and women who are seeking em-
 ployment should make the most of this day's
 opportunities.

It is an auspicious time for soliciting the pa-
 tronage of the great and the near-great.

The day of the week on which a person was
 born is supposed to be always lucky and for this
 reason Friday's children should succeed extra-
 ordinarily in any quest under this way.

According to ancient lore an event of im-
 portance is sure to happen to women in the
 thirty-first year and all who have reached the
 end of the third decade may look for something
 memorable to happen.

Jupiter gives promise of much that is satis-
 factory in trade and business at this time, even
 though there may be certain rather discouraging
 conditions.

Railways and the postoffice service are to be-
 nefit before midsummer, it is forecast.

Again strange deaths by poison, overdose of
 drugs and suicide are foretold.

Persons whose birth date is 1 have a happy
 outlook for the year. Changes that bring
 prosperity appear to be indicated by the stars.

Children born on this day may meet with
 many unusual experiences in life. These sub-
 jects of Tau will find the career of success and
 good luck all through their careers.

Fols of folks with good intention,
 Prefer a cure to sound prevention;
 Though they're offered sure protection,
 They'd rather dope some dire infection.

That the way to a man's heart is through his
 stomach is unfortunately true.

MORE FAT SOLUBLE VITAMIN

Plain cod liver oil contains more
 vitamin than any other known sub-
 stance. It is rich in the fat soluble
 vitamins and much richer than butter
 in the vitamins which prevent rick-
 ets.

Cod liver oil, the plain, preferably
 unrefined or unperfumed article, has
 long borne a good reputation in medi-
 cine. Long before the vitamins were
 discovered, we must remember, that
 no one yet discovered or identified
 any of the vitamins) physicians had
 found that cod liver oil possessed pec-
 uliar virtues as a remedy in rickets,
 in many cases of rheumatism, re-
 tarded growth in the young, some
 cases of bronchitis and some cases of
 depressed vitality. Since the idea of
 these unidentified accessory factors
 which are called vitamins was intro-
 duced, by research workers experi-
 menting upon animals in the study of
 nutrition, many of the old medical
 assumptions regarding the value of
 cod liver oil have been established on
 a scientific basis, and several newly
 recognized facts have been added to
 our knowledge of the effect of this
 sterling medicine. Again, in particu-
 lar, we are speaking of plain cod liver
 oil. If the fresh cod livers were avail-
 able to the public as food, that would
 be better than the oil. But the cod
 liver oil is the best in this regard, and
 you have no assurance that you are
 getting the vitamins unless you take
 the unrefined cod liver oil. Cod liver
 oil conforming to the standard of the
 Pharmacopoeia is right.

Among the conditions in which cod
 liver oil seems to have specific re-
 medial effects are osteoarthritis (de-
 caying of the bones), delayed cutting
 of the teeth, weak or depressed vitality,
 retarded growth in young persons,
 rickets, certain cases of diarrhea in
 infants, many cases of testicular and
 bronchial infections and particularly
 sinusitis, xerophthalmia, (dryness
 and irritation or inflammation of the
 eyeballs), xerosis (excessive dryness
 and hardness of the skin), and many
 cases of low grade conjunctivitis (in-
 flamed eyelids) in children, many
 cases of recurring boils in youths,
 certain cases of amenorrhea in young
 women, and even some cases of ster-
 ility.

Nowadays it is not a bad practice

Q. How long have handkerchiefs
 been used?
 A. The handkerchief is one of the
 refinements of Roman civilization. It
 came into general use in polite so-
 ciety during the reign of Henry VIII
 of England. It is obviously connected
 with ecclesiastical costumes and may
 have been an outgrowth of the man-
 diple, which was originally of linen
 and worn over the shoulders of the
 18th century. At this period
 handkerchiefs were richly ornament-
 ed. Women adopted the use of col-

 wearing of snuff became an established
 custom.

Q. When are the wheat harvests in
 Kansas and Nebraska?
 A. Kansas and Nebraska have
 nearly all the winter wheat har-

 sas the harvest begins about June 15,
 and by June 25, in a normal year, it is
 estimated that there are 50,000
 men and women working in the
 wheat fields. A number of them have
 come in from the south, upon com-

 them have been gathered from the
 cities and other centers of employment
 in the east, largely by the public

 and other points; and in part the army
 is composed of local laborers assem-

HOWARD LOCKE, son of a big business man, Newcombe and Runnels to Florida on his steam yacht. He falls in love with Polly.

There was little light, but Locke worked swiftly by the moonlight, with fingers that ignored the general contents, and that sought desperately for hidden things. His fingers traveled every inch of the lining of the bag, top bottom and sides. He disturbed nothing.

Presently he laid the bag aside, and started on another—and suddenly he noticed his head sharply in satisfaction. This one was what he was generally known as a Gladstone bag, and under the lining at one side his fingers felt what seemed like a folded paper that moved under the touch. The lining was in fact, of course, but there must be some way of getting it underneath it—yes, here it was! Rather clever! And ordinarily, quite sufficient for one who was actually looking for something of the sort.

There was a flap, or pocket, at the side of the bag, the ordinary sort of thing, and at the bottom of the flap

Dandruffy Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do it all means get rid of dandruff, for it will destroy your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff, for it will solve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp, and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and itching of the scalp will stop, and your hair will look and feel a hundred times better. Liquid arvon is all you need, no matter how much dandruff you have. This simple remedy never fails. —Advertisement—

COULD NOT WALK BECAUSE OF PAIN

Bad Case of Woman's Illness Remedied by Lydia E. Pinkham's Vegetable Compound

St. Louis, Mo.—"I had such a bad case of female trouble that I could not walk because of the pain. My back was all aches, and I could not bend, could not go to work because of weakness, and no one could possibly be in worse shape than I was. I have taken 12 bottles of Lydia E. Pinkham's Vegetable Compound, and I am a strong woman now and can work around any of my neighbors. They wonder how I can do so much work. I dare say that I have recommended your medicine to a thousand women. A little book was thrown at my door, and that is how I first learned of it."—Mrs. D. A. BEAUCHAMP, 1104 Morrison Avenue, St. Louis, Missouri.

Letters like this bring out the merit of Lydia E. Pinkham's Vegetable Compound. They tell of the relief from such pains and ailments after taking Lydia E. Pinkham's Vegetable Compound.

RADIO HELD GREAT INFLUENCE OF DAY

Destined to Change Social Institutions, Extension Convention Told.

(BY ASSOCIATED PRESS)
Madison — Radio communication is destined to change present social institutions as profoundly as the motion picture and automobile have in recent years. It is destined to hold the same place for the boy of tomorrow as the Arabian Nights for the boy of yesterday. These were statements made by Prof. W. J. Lighty of the University of Wisconsin in a report today to the annual convention of the National University Extension association in session here.

Prof. Lighty declared that radio is certain to take a leading role in extension work of universities of the nation in years to come, but he declared that the time when radio courses will be effective will not come until a definite program for radio broadcasting is developed.

Will safeguard public. The nation is far behind in the passage of legislation regulating radio broadcasting, Prof. Lighty said. He pointed out that the present congressional law regulating radio work was enacted in 1912 when the telegraphic method of radio communication alone was used. Twenty-nine government inspectors have the right to enter any station with 20,000 radio stations in existence in the nation, the speaker said.

"Regulation that will adequately safeguard and guarantee the public interest for the development of the science is imperative," Mr. Lighty continued. "It is absolutely necessary that the government retain possession of the ether in the public and provide rules for orderly conduct in the use of the ether. The ether, like public office, is a public trust, or public concern possessed of public interest and in basic principle is a public utility."

Tax Is Proposed. Mr. Lighty declared it unthinkable that a single group of persons or organization should be permitted to determine what may or may not be done in radio communication and the use of ether. He expressed opposition to licenses for the operation of radio sets and also proposed taxes upon radio apparatus. To impose a tax upon the radio interest seems like imposing a tax upon liberty, he stated. The speaker urged the national association to take a definite stand on the regulation of radio operations and to interest itself in development of extension courses by radio.

Great Development. Development of university extension work has surpassed that of any other branch of education work during the past 10 years, Prof. L. E. Tober, dean of the University of Wisconsin Extension division, declared before the convention. Dean Tober was one of the founders of the national association.

INDEPENDENCE AT END OF 20 YEARS

House Committee in Favor of Greater Autonomy for Philippines.

(BY ASSOCIATED PRESS)
Washington.—A promise of greater autonomy at once and independence in 20 years is held out to the Philippines in a bill favorably reported to the house by its insular affairs committee.

Although no place has yet been assigned to it on the legislative program, friends of the measure are expected to press for a vote on it before congress adjourns.

The bill, with a provision for an independence plebiscite in the islands at the end of 20 years, was amended by the committee late yesterday to eliminate the plebiscite requirement and provide for automatic recognition of the Philippines as an independent nation and withdrawal of American troops at the expiration of 20 years.

State Insurance on Own Buildings Keeps Growing

(BY ASSOCIATED PRESS)
Madison.—More than \$1,000,000 has been saved to the state and to municipalities and schools of Wisconsin through operation of the state fire fund since its organization, according to information contained in the annual report on the fund submitted to Gov. Blaine by W. Stanley Smith, state insurance commissioner.

The report shows that there is in force at the present time a total of \$78,110,169 of insurance in the state fund.

During the past year the surplus in the fund increased a total of \$154,096, the report declares, or from \$514,876 to \$749,972.

Losses Very Small. Twenty-one Wisconsin counties, 12 cities, 37 school districts and two library boards now hold insurance in the state fund, it is stated. Net premiums earned by the fund last year were \$152,217; net losses, \$601,041; interest received, \$22,260, and the average rate of interest on money from the fund was 4.9 per cent.

The ratio of losses incurred to premiums earned during the year was 38 one hundredths of one per cent, the report shows. The ratio of expense incurred was 2.35 per cent, and losses and expenses incurred amounted to one-third of the interest received.

collected from money in the fund. Total assets of the fire fund at the close of 1923 were \$912,214 and liabilities \$113,171.

A majority of the funds from the fire division are invested in farm loans and mortgages, according to Commissioner Smith. In hands at the close of the year there was invested \$805,769. Wisconsin farmers are given preference whenever loans are made, the commissioner said.

"The fire fund is in the best financial condition at this time that it has been in years, Commissioner Smith declared. "The surplus in the fund increased from \$441,976 in 1922 to \$759,072 at the close of 1923, or one of the most substantial gains that has been made in one year."

Busy Man's Sport Page

By FRANK SINCLAIR

BASEBALL games are just and won't give the field of play a better than the game, so far as each particular game is concerned, but there is much more to the grand American national pastime than that. There is a lot of the places where the things that make it possible to win ball games are learned, taught, experienced with. The team that is ship-shod about practice sessions, and that permits any of its players to skip or become otherwise lax about practice, has lost at least a third of its efficiency in the field before it even gets there. The old saying that practice makes perfect is as true upon the diamond, or any other sport for that matter, as it is in the daily pursuits of life. That is one of the secrets of the Fort Atkinson team in winning the pennant of the Southern Wisconsin league last year. Lack of it handicapped many teams last year and does every year. It is one of your foes when the very true comes to be up on your demands that you first of all know how to get up on them.

AND PRACTICE is not enough if it is just practice any old way. That's not practice; it's playing catch, or catching flies, or flying out your sliding bags, or a number of other scattered things. To be of value, practice must be systematic. It is just as much of a manager's job to manage a team as it is to manage a business. It is to get these men to general the team's action in actual competition. If he neglects a little thing, he is neglecting the whole thing. To work out problems that might arise in a game, players will have more of a desire to practice.

IT IS in the practice session that a team gets the hang of hitting, of catching, of hitting hard, of the hit and run, of the squeeze play—any of these tactical tricks of the game. When a team has several men who hit two and three baggers and then does not score, and has men who do that in game after game, there must be something wrong with the team's method of practice. There is no need here to go into detail on these matters. All the tips that are necessary for the average team may be found in plenty of books of advice—good books—and may be obtained from older heads at the game. The team that can procure a coach of some experience in the game, or who can pick out the faults of play and tell just where the team slips a cog now and then. After the game is over, study the reasons why you win or lose. It is even then you can see things that could have been done that would have made you look even better. Ball playing requires constant efforts to improve.

Stuvy Breaks Leg

Bone in Practice

(SPECIAL TO THE GAZETTE)

Orfordville -- Charles (Chuck) Stuvy, Stuvy, local lad who is playing first base for Sioux Falls in the Prairie League, broke a small bone in his left leg in practice last Sunday. Word to this effect was received here Wednesday. The break came close to the ankle when Stuvy was endeavoring to avoid a collision with his own pitcher, Stuvy is expected to be out of the game for at least three weeks, badly crippling the team.

St. P. Pin Meet Confirmed: Another Netman Quits

GREATEST TOURNEY IN LINE'S HISTORY GIVEN BOWER CITY

Confirmation that the 1925 bowling tournament of the employees of the Chicago & North Western railway system has been awarded to Jamesville is contained in a letter received by William A. Nasser, local delegate from E. H. Brown, Milwaukee, president of the St. Paul bowlers. First information that the meet was to come to Jamesville was printed by the Gazette a week ago. The local bowlers, however, had received no definite or official word.

The announcement is contained in the following letter:

"Our secretary of the Milwaukee Road bowlers' Third Annual tournament held at Minneapolis, advises that Jamesville has been awarded the fourth annual tournament for the season of 1924-1925.

"Accept my heartfelt congratulations, and I am very pleased to know your efforts have brought the tournament to Jamesville, Wis.

"Allow me to encourage the appointment of officers at an early date so that the advertising for our next year's tournament will reach all throughout the system and thereby have one of the greatest attendances in the history of the Milwaukee road bowlers.

"An assistance that I can give will gladly be furnished upon request, such as securing printing and other advantages, and I can assure you that Milwaukee and vicinity will be at hand with a larger crowd than that which attended the Minneapolis affair."

Simmons Loses in Ohio, 4 to 0

(SPECIAL TO THE GAZETTE)

Massillon, O.—Walter Kinney, former Philadelphia Athletic southpaw, Wednesday afternoon pitched the Phillies to a 4 to 0 victory over the Simmons Bobs of Kenosha, 1923 pennant winners in the Midwest league. In the first of a three-game series, Kinney was wild but tightened at critical times and was given brilliant support.

Norman Pitt, Simmons right hander, relieved after the sixth frame, having been touched for seven hits and four runs. The hitting of Dick Gossert featured, his triple scoring a run in the second and his sacrifice accounting for another in the sixth.

Bill Lathrop of Jamesville, Wis., relieved Pitt and held the locals scoreless from the seventh on, allowing but two hits.

Wisconsin Beats Beloit Nine, 7-0

(BY ASSOCIATED PRESS)

Madison—Wisconsin was leading Beloit college, 7 to 0, Wednesday when a heavy downpour forced hostilities to end in the sixth inning. Christianson and Johnson held the state line colleges to a single infield hit which Hastings beat out to Ellington to start the fifth.

The Indians fielded well and hit opportunely, especially Dugan and Tanken, the latter driving a long home run into left field. Christianson, turned an ankle running into third after driving out a long triple and Johnson replaced him in the fourth. Beloit getting its lone hit.

BRINGING UP FATHER

A "REB" LEADER IN THE NORTH

By NORMAN E. BROWN

The American association frequently "drives the affectionate appellation of 'Old Man's Home.' It may be, a lotta boys who had the going too fast in the big leagues come back to the A. A. for a few seasons.

But some of these old timers still have enough pep to make life miserable for their mates and the young stars stopping in the circuit on their way up.

Now there's "Reb" Russell of Columbus. He, at the ripe old age of 35, with 12 years of baseball behind him, is making pitchers, young and old, feel nervous, aged and agile, real nervous with his terrific slugging again this season—A 250 pace.

Whitewater Wins Mud Battle, 19-8

(SPECIAL TO THE GAZETTE)

Whitewater — The local normal school baseball team and that of Louisville college clashed out mud and bats to their players here Wednesday in a thrilling game, won by Whitewater, 19 to 8. It rained throughout the contest. Milton used three pitchers—Lewis, Baker and Bentz, with Hettelung, a White Sox, for used Schultz and Cummings on the mound. With a slippery ball and oozy ground, good ball playing was out of the question.

OUTLOOK IS GOOD FOR STATE BOWLING

Milwaukee.—The annual meeting of the executive committee of the Wisconsin Bowling association was held on Sunday and the following members were present: E. Rutherford, president, Cedarburg; Wilbur P. Benson, secretary, Milwaukee; E. H. Bach, Milwaukee; A. Braun, Kohler; J. C. Gmel, Watertown; A. A. Hennig, Neenah; C. E. Brown, Fond du Lac; F. J. Oile, Sheboygan; S. Richards, Janesville; C. Smith, Madison; and Robert St. John, Oshkosh. C. E. Brown, representing Fond du Lac, predicted Fondy will set a new world's record for state pins.

A. Jones, Fond du Lac, was elected president, E. Rutherford of Cedarburg, vice president, and E. Shaw, Fond du Lac, treasurer. Entries will close Thursday, Jan. 8, at midnight, and the tournament will open Wednesday, Jan. 21, 1925.

Over 100 reservations have already been made for the next tournament, which will be held in a new amusement building known as the Valley Arcade.

Plan Eight Team Kitten Ball Loop

Kitten ball is coming back again this summer. The same six organizations that had teams in the city league last year at a meeting held in the Gazette office Wednesday night, decided to open the season on Tuesday, May 20, and play twice around. Games would be played Thursday nights of each week at their fair grounds. Invitations are being extended to the Chevrolet and Fisher Body plants to enter teams in the circuit. A further organization meeting is to be held in the Gazette office at 8 p. m. Friday, May 23, present Wednesday were Bruce Jeffris, Parker Pen, Dr. Emil Schweigler, Elks; A. J. Olsen, Elks; Dr. Irving A. Clark, Lakota club, and Knights of Columbus; Frank Trever, Elks; and Frank Sinclair, Gazette.

COAST GOLFER'S LOSS

The request of the Pacific coast professionals to be allowed to hold a qualifying round of their own for the national open championship this year has been turned down. However, guiding officials have taken the matter under advisement and promise favorable action for 1925.

Jack Dempsey has received \$1,250,000 during the last five years for 28 rounds of fighting.

Edgerton Closes Spring Football with Strong Squad

(SPECIAL TO THE GAZETTE)

Edgerton—Spring football, a new activity at Edgerton high school, completed Monday when all lockers and equipment was checked in until school opens in the fall. The idea of spring football was introduced by Superintendent Holt, beginning the second semester and over 40 candidates have been reported to Coach Abendroth, who has had complete charge of the work. These classes have been held twice each week. During the winter months lectures and instruction were given on the fundamentals of football, with demonstrations outside since the weather has been favorable.

Results of this experiment have been very satisfactory and prospects for football next fall appear to be the best Edgerton has had in recent years. Of the 16 letter men, eight will return. Much new material has shown possibilities, among whom are Nelson, Simpson, Arnold, Noble, L. Guinness, Hubitz, Stark, Oberdorf and others. These will be expected to fill the gaps left open by the passing of Spills, Schmidt, Whitford, Owens and Larson.

Edgerton again has a heavier schedule, meeting the teams of Jamesville, Madison Central, La Crosse, Stoutland and Lako Mills and other open dates will be filled in the near future.

BRITISH LIGHTWEIGHT

New York.—England has a lightweight in Eric Izard who is more of a physical specimen than a boxer. He stands 5 feet 10 inches, but his height does not react against him. He is a "knockout" man, and has beaten his record, 12 in 12, against a well-known left hand that carries considerable sting. One of his feats was to defeat Eric Bond, who had beaten Denny Fenech, a good boxer and it takes a strong opponent to outstrip him.

THE OLD APPLE SAUCE

Descendants, who manages Carpenter, expects that he will bring along 1000 francs to bet that his lightweight, Paul Titcher, will beat Benny Leonard. Which is interesting, if true.

Memphis has sold Fischer, George Carroll to the Monroe, La. team of the Cotton States league.

Fischer Resigns from Davis Team on Writer Rule

Philadelphia—Declining to be out of sympathy with the player-writer interpretation of the United States Lawn Tennis association, Carl Fischer, international champion Wimbledon night forward his resignation as a member of the American Olympic and Davis cup squads to Julian S. Myrick of New York, chairman of the Davis cup committee.

Fischer, who writes tennis and other sport articles for a local newspaper, said he is convinced that he is not fighting "the recognized standards of American tennis."

Fischer is the second leading player from the Philadelphia district to resign from the Olympic and Davis cup teams as a result of the U. S. L. T. A.'s interpretation of the amateur rule.

William Tilden, 2nd, national champion, resigned about two weeks ago.

SOUTHPAWS IN FAVOR OF SUFFRAGE DELIVERY

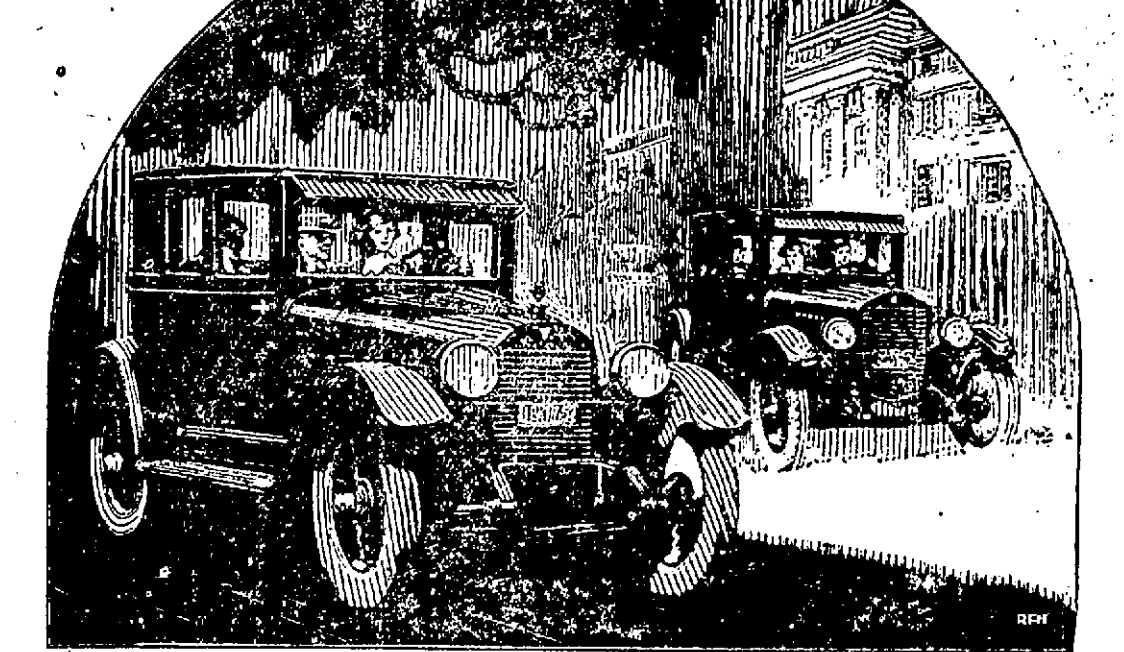

Is the spiritual hand on the arm? Great and small players like Ed. Walsh and Jack Chesno always insisted throwing the most delivery took a lot out of a pitcher's arm.

Left handers using the splitter have been the decided exception. Clarence Mitchell of the Philadelphia National League is one of them.

Mitchell takes a directly opposite view from that entertained by most southpaw pitchers. He says the splitter is far easier on his arm than the fast one or curve.

At Open Car Cost

All Closed Car Comforts, Utility and Distinction

Why buy an open car? High cost for closed car comforts is no longer a question. The Coach—exclusive to Hudson and Essex—gives every closed car advantage, at almost open car cost. No other car shares its position.

It creates the dominant car issue of the year. Mark how rapidly the Coach is superseding open cars. Sales exceed 3000 a week. It is the largest selling six-cylinder closed car in the world.

Buyers must consider any purchase in the light of this overwhelming trend. As the wanted car the Coach maintains high resale value, against the waning desirability of open cars.

Hudson and Essex—inventors and exclusive producers of "Closed Car Comforts at Open Car Cost"—are responsible for this issue. In two and a half years, and in the hands of more than 135,000 owners, the coach has proved a staunchness and serviceability never before associated with a closed car. It gives every utility you can get in any closed car. All concede unsurpassed chassis reliability. The price removes it from all competition.

You today want "the car for everyone."

WAUPACA CLOSES CO. NORMAL SCHOOL

Appleton-Waupaca county board of supervisors voted to close the rural Normal school at New London at the end of the present term. In 1922, \$40,000 was voted for a new school to be built in New London, but after passage of the appropriation objections were raised by Macumwa and Waupaca against building at New London because, it was charged, the city is not centrally located. The board this week decided not to build at New London but voted to discontinue its teacher training
